

Samsung NP-N145-JP02US Battery Replacement

Battery replacement on a Samsung NP-N145-JP02US

Written By: Laura Denali Harbinson

INTRODUCTION

This guide will provide instructions on how to fully replace the battery on a Samsung N145 laptop. You will be given steps on how to detach the current battery of your device and attach a new one. You will want to perform this replacement if the battery of your device does not charge when it's plugged in or it does not hold a charge.

Step 1 — Battery

- ❗ Before starting the replacement, turn off the device and disconnect all cords from the computer.
- Close the device and lay it face down.

Step 2

- Locate both the battery locking latches on the lower right and left sides of the battery.
- Slide both locking latches outwards simultaneously to unlock the battery.
- While holding the locking latches in the outward position, pull the battery off and set it off to the side.
- Release the locking latches after completely removing the battery.

To reassemble your device, follow these instructions in reverse order.
